NOTICE

"Study in India" Programme

With a view to providing access to the international students to study in the best institutions in India, Minister of External Affairs of India Smt. Sushma Swaraj, has launched a "Study in India" campaign.

Under this campaign, premier educational institutions in India have offered more than 15,000 seats for eligible foreign students in various disciplines. Through the centralized admission portal: www.studyinindia.gov.in, a foreign student can apply, without any fee, for almost 83 premier educational institutions giving their choices. The details are in the portal. The algorithm in the portal will rank the student based on the merit and allocated seats based on his / her choices. The institutions offering their seats have also committed to provide freeships (varying from 100% to 25% depending on the merit) to more than half of the students.

The programme would be implemented by Educational Consultants India Limited (Ed.CIL.) which may be contacted on the following coordinates for further details.
